

## SCAERO Frankensquares

*Chewy, ooey-gooley, and spooky. The perfect creation for scary movie night.*

### Ingredients:

- 1 box of puffed rice cereal
- 1 bag of marshmallows
- 1 tub of green food colouring
- 8 SCAERO Junior bars
- 16 candy eyes
- 1 tub of black icing

### Instructions:

1. Prepare puffed rice cereal treats according to instructions on the box.
2. Once the marshmallows are melted, add several drops of green food colouring until you get the shade you like, then add the puffed rice cereal.
3. Press mixture into a greased rectangular pan.
4. Let cool, then cut treats into rectangles.
5. Melt SCAERO junior bars in 30-second intervals, stirring in between to melt them completely.
6. With a knife, spread melted SCAERO over the top of each treat, to resemble Frankenstein's hair.
7. Press two candy eyes onto each treat, until they stick in place.
8. Fill a plastic bag with black icing and cut off one corner of the bag, about 1/4 inch from the tip, then pipe icing onto each treat to create Frankenstein's mouth.

*Yield: 8 servings*
