

## Origami Vase Sleeve

### Materials & Tools

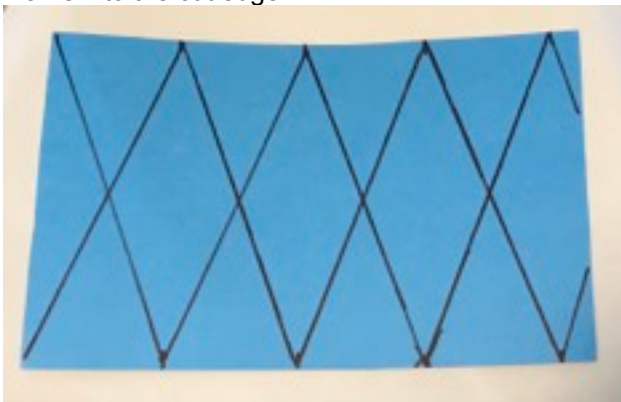

- Card stock paper
- Glue
- Ruler & Pencil

### Instructions

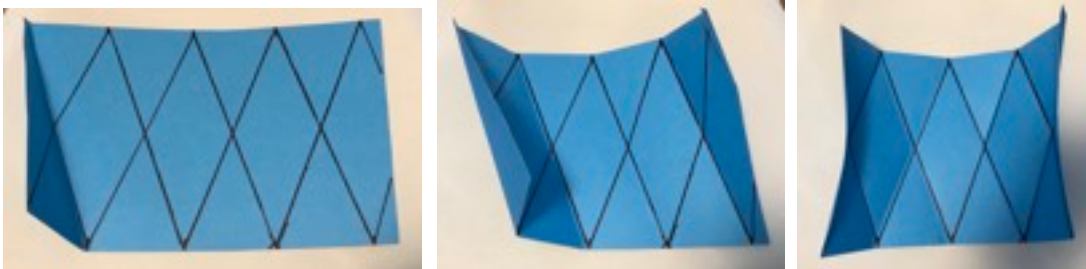

1. Cut card stock into a rectangular piece – 12.75 inches x 8 inches and mark long side every 3 inches – you will have 0.75 inches at the end and repeat along top edge

2. Using a pencil – draw lines to connect the marks into diamond shapes and repeat for the last two marks into the cut edge

3. Fold into the same direction along all diagonal edges – the card stock will begin to curl up into a C shape

4. Stand up and gently twist bent sides and bring together two shorter sides

5. Glue two ends where sides overlap

6. Slide over a vase or container
